Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 74-100 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Hillman et al.

See the appropriate paragraph of paper 8 for the teachings of Hillman et al.

Response to Arguments

Applicant's arguments filed 4/22/02 have been fully considered but they are not persuasive.

The remarks with respect to the 35 USC 112 second paragraph issues were convincing and the rejection has been vacated.

In the first paragraph on page 3 Applicants state the instant invention determines a plurality of target ligands in a sample whereas Hillman teaches no such device. Hillman teaches a device with a plurality of reagents bound to the surface of the device (e.g. see the last paragraph of column 6). The Office has read each bound reagent on the claimed "discrete capture zone". Hillman teaches a plurality of bound reagents and thus reads on the claimed "plurality of discrete capture zones".

In the last paragraph on page 3 Applicants state Hillman fails to teach a plurality of discrete capture zones for different analytes. These remarks are not commensurate in scope with the claims. The claim language is only directed to a plurality of target ligands and not a plurality of different target ligands.

Art Unit: 1743

Even if Applicant amended the claims to include the limitations for determining a plurality of different target ligands, Hillman teaches in the last paragraph in column 20 through column 21 use of a variety of reagents for the detection of a variety of different analytes.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
